## Harlingen Participating in 2020 “Road to Recycling” Tire Collection on June 6

**HARLINGEN, Texas-** The City of Harlingen is participating in the annual tire collection event on Saturday, June 6 taking place in the Rio Grande Valley.

On this day, residents are encouraged to drop off used or unwanted tires at no charge at designated locations for proper disposal.

The goal is to eliminate illegal dumping and possible contamination or clogging of our waterways. In Harlingen, residents with a current water bill and matching address on an ID can drop-off up to four tires at 4900 E. Harrison.

The drop-off site will be open

from 7:30 a.m. to 2:40 p.m.

This is a combined effort with cities and counties in the region spearheaded by the Lower Rio Grande Valley Development Council.
